## Allocation Processing

There are four Allocation Dates each month: the 1st, 8th, 15th and 22nd. The index value will be based upon the closing value of the index on the Allocation Date, or, if the Allocation Date is not a Business Day, then on the last Business Day. A Business Day is defined as a day when the New York Stock Exchange is open.

The initial allocation of any premium may be done so among the various strategies in any manner desired by the owner. Premiums are initially allocated to a Holding Account. This account will apply interest to the premiums between the time they are received and the time they are allocated to a Crediting Strategy. The interest earned will be treated as an interest credit to the policy, and will be combined with the premium when allocated to a Crediting Strategy. The interest credit applies only to the premium, and not to the 10% Bonus Interest.

## Saving Age Note

Saving Age on the Gold Series Fixed Indexed Single Premium Whole Life product - Upon receipt of the applicable premium, the effective date of the policy is equal to one of the four monthly allocation dates which are the 1st, 8th, 15th and 22nd. Therefore, backdating of a policy is not available for this product.

  - b) is required by a government agency to elect an Accelerated Benefit in order to apply for, obtain, or keep a government benefit or entitlement.
4. No Accelerated Benefit will be provided if the Terminal Condition or Chronic Illness<sup>1</sup> results from intentionally self-inflicted injuries or attempted suicide while sane or insane (not in MO).
